PROFILE

AI filmmaker and visual artist with 15 years in AAA game development and a BFA in Illustration from Art Center College of Design. Background spans cinematic lighting, art direction, concept design, environment and character design, and cross-team creative leadership across multiple studios and franchises. Now building cinematic AI video end-to-end: concept, prompt engineering and generation (Kling, Veo, Seedance, Midjourney, Nano Banana, GPT Image 2.0), voice and sound (ElevenLabs, Suno), and final edit in DaVinci Resolve.

CORE SKILLS

Generative AI Video Production | Prompt Engineering & AI Asset Pipelines | Cinematic Lighting & Color | Concept Development & Visual Direction | Character & IP Development | Editing & Post-Production (DaVinci Resolve) | Visual Storytelling & Narrative Design

WORK EXPERIENCE

AI Filmmaker / Cinematic Content Producer — SRA Motion Studio | Keller, TX | 2025–Present

- Produce cinematic AI reels and short films for brand storytelling using end-to-end generative pipelines: image generation, image-to-video, voice, music, and final edit.
- Recent work includes dialogue-driven character reels, product spec ads, and a financial-satire short film.
- Built sramotionstudio.com as portfolio and client-facing site.

Fine Artist — Scott Anderson Fine Art | Keller, TX | 2009–2025

- Built and managed an independent fine art business with gallery representation across California, Nevada, and Arizona; transitioned to a direct-to-collector sales model from 2019, generating hundreds of thousands in sales.
- Managed all production, marketing, photography, and client relations. Portfolio: sra-art.com

Senior Artist / Art Director — Crystal Dynamics (Eidos) | Redwood City, CA | 1997–2009

- Lighting Designer & Materials Lead (Tomb Raider: Underworld): led cinematic lighting and pioneered ZBrush-based material development workflows.
- Art Director (Whiplash, PS2): set complete visual style, directed cross-disciplinary art team, ran reviews, recommended hires.
- Senior Artist and 3D Artist across multiple shipped titles including Gex: Enter the Gecko, Gex 3: Deep Cover Gecko, Walt Disney World Quest: Magical Racing Tour, and Mad Dash Racing.

3D Artist — 3DO | Redwood City, CA | 1996–1997

- Spacecraft concept design for Galactic Conquest (PC), creating distinct visual identities for multiple factions.

2D/3D Artist — Head Games | San Francisco Bay Area | 1994–1996

- Character, environment, and narrative design for Extreme Dreams (PSX) and X-Men 2 (Genesis).
